About This Game

A grid-based dungeon-crawler, in classic first person perspective.

Crystal Rift is an inspired by classic dungeon games such as Dungeon Master and Eye of the Beholder with grid-based movement, it has been developed primarily for **Virtual Reality headsets**, but is also a great experience for those without headsets.

It's an experiential horror challenge game that takes the player through a series of increasingly mysterious locations. Crystal Rift has 26 levels, with unique styles and settings, to provide many hours of gameplay. The player slowly uncovers the narrative and story through exploration, discovering dark secrets and following the path of those who have come before.

Use the In Game Dungeon Editor to build entirely new adventures and challenges for other players to solve.

- Classic dungeon crawling experience with grid-based movement, monsters, hidden rooms, pressure plates, trapdoors, fireballs, challenges, tactics and more.
- Designed for Virtual Reality First, this leads to a rich immersive 3D environment with details you can lean into and see, this also presents perfectly in 2D.
- A unique and compelling story told through the environment, text and speech

-
- Optional Scare level, Off, Normal or Extreme
 - Optional Difficulty levels including hardcore perms-death
 - 26 Levels with many hours of gameplay.
 - An ingame Editor, you can create, edit and share maps built inside the game, no external tools required.

WARNING: Crystal Rift is an intense (but awesome) experience in VR, it takes time to get your VR Legs, please take baby steps if you are sensitive to locomotion in VR play in very short sessions and perhaps try cages, sitting down and a controller if you are still effected, the second you feel a bit of nausea please stop and take a break

5V10

I started off loving this game, but then I got to the later levels and fell foul of all the bugs, one of which bars progress to the end of the game (DEVS: the four keys in the mine level don't open the gate out of the level!).

This game should never have been released in this state. Don't buy it until someone posts on here that it is finished.

We hope to maintain a great relationship with our players so don't be afraid to ask any questions or post cool suggestions :)

Frozen District Team. **Devlog: New Publisher, new plans:**

Hello Travelers!

We have a big news! Recently we signed a publishing deal with **Fat Dog Games**. Thanks to this we'll be able to polish up the game more before the full release. Following these changes we also moved the planned release date to Q3 2018, so we can deliver a better product for our players in the end.

As for the development progress we're currently in the concept stage for world 3 and its inhabitants, you can see some of the sketches and concept art below.

. Warlocks 2 at Gamescom:

Whew!

What a week it was, we went to Cologne to showcase our project at Polish Booth. Got a ton of useful feedback and a few bug reports.

People praised the mix of retro aesthetics with modern gameplay mechanics and polish, but they also liked the light-hearted writing and characters (Score!).
