Free Download Easy-mark Labeling Software Serial 29[Determination of thalidomide in human body fluids by liquid chromatography-electrospray ionization tandem mass spectrometry]. To develop a simple and rapid method to determine the concentration of thalidomide in human body fluids. The sample of acetonitrile was treated by liquid-liquid extraction method with an internal standard (prothalidomide) added and the supernatant was injected into the LC-MS/MS system. The method was investigated for its sensitivity, accuracy, repeatability and precision. After a single oral administration of one capsule of thalidomide 0.5 mg, the maximum concentration of thalidomide in plasma, saliva, and sweat was (35.07 +/- 3.39) microg x L(-1), (2.35 +/- 0.23) microg x L(-1), and (2.12 +/- 0.13) microg x L(-1), respectively. The method is specific, sensitive and suitable for the determination of thalidomide in human body fluids.Q: Can I specify connection string in MVC Application.cs rather than web.config I have a MVC4 Application that I would like to connect to a SQL Server database. My web.config looks like this: Is there a way to specify the connection string on the Application.cs? I realize I can store a connection string in the App
