About This Content

Enter the City of Suffering where the Drukhari hunt their human prey on a larger scale. Hinder the Xenos plans, take down as many Pain Catalysts as you can and make them pay for every Imperial citizen they steal.

This DLC contains the world Myrkon as a Starmap location, home to a brand new game mode that comes with its own leaderboard. You can find Myrkon in the Malcorum system in the Triglav Subsector. (Please note that this Starmap location is only available after unlocking the Triglav Subsector.)

Picked this one up. If you like the new season stuff get this to complete the game. Now Diablo 3 season stuff is free and so is this if you use in game fate. But the price of the seasons are not that bad considering that a pod of paint is around 4.25 USD at the warhammer store. ;). Best map for grinding Fate and getting tons of Legendary items. If you manage to get a lot of points, you will get more lootboxes with legendary items. Definitely worth the grind.
